Art Unit: 2174

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-39, and 71-107 are drawn to interface that includes a dynamically generated menu items, classified in class 345, subclass 825.
- II. Claims 40-70 are drawn to navigation of a hierarchy or a net work structure, classified in class 345, subclass 853.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has a separate utility such as a selected combination cell which is determined by a selection of search cell; invention II has a separate utility such as a folder of a tree hierarchy. (See MPEP § 806.05(d)).

A telephone call was made to Kendyle Roman on July 25, 2:00 pm to request an oral election to the above restriction requirement. Mr. Roman didn't make an election.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search for each group is different, restriction for examination purpose as indicated is proper.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peng Ke whose telephone number is (703) 305-7615. The examiner can normally be reached on M-F 8:30-5:00.
